

Critical Illness Insurance

CHUBB®

Provincial plans do not take care of all that is needed when you are diagnosed with a critical condition. At a time when incomes are potentially reduced, and expenses increase due to medical needs, a critical illness plan is the best way to fund a possible lengthy recovery period. As a member of the IATSE 891 Benefits of Film* with coverage on the active Hour Bank, you are provided with a \$25,000 Critical Illness benefit to help you in your recovery

Did You Know?

- Approximately 196,900 new cases of cancer occurred in Canada in 2015¹.
- 63% of Canadians diagnosed with cancer will survive at least 5 years after their diagnosis¹.
- There are an estimated 70,000 heart attacks each year in Canada. That's one heart attack every 7 minutes².
- Up to 40,000 cardiac arrests occur each year in Canada. That's one cardiac arrest every 12 minutes².
- There are estimated 50,000 strokes in Canada each year. That's one stroke every 10 minutes².

The Benefits

Chubb Life Insurance Company of Canada's ("Chubb Life") Critical Illness program provides the kind of financial assistance that allows you to focus on the important things during recovery like getting better. This benefit provides a lump sum pay-out following the diagnosis of a covered condition³, which can be used any way you wish.

Frequently Asked Questions

What if I've been diagnosed with one of the listed covered conditions already?

Chubb Life will not pay the benefit amount for any insured condition you were diagnosed with before the effective date of the policy.

Are there other limitations to the policy I should be aware of?

Chubb Life will not pay any benefit amount for cancer, early stage prostate cancer treatment or DCIS for a period of 90 days from the effective date, or the latest reinstatement date of the policy.

What if I make a full recovery?

We want you to make a full recovery. That is the purpose of critical illness insurance. It provides you with the funds to assist you during recovery so that your finances will also survive your critical condition.

What if I don't survive?

You must survive 30 days (180 days for paralysis). After that, if you are eligible for a claim payment but do not survive to receive it, we will make the payment to your beneficiary.

I have disability coverage, so why would I need critical illness coverage also?

Disability coverage is meant to provide you with a percentage of your income in the event you are unable to work. At a time when your income may be reduced due to being on disability, you are likely to see an increase in expenses for medical treatment. Critical illness coverage helps fill this gap.

Also, you are not required to be unable to work in order to receive your critical illness benefit. It is paid in addition to your income or disability benefits.

How does an insurance company decide if my critical illness is eligible for a benefit payment?

The covered conditions are defined by medical terms, if you have been diagnosed by a physician, specializing in the field of your illness, your doctor will provide the appropriate medical evidence required that determines if your condition falls within the policy terms.

What are the benefit amounts for the additional benefits?

The Second Event benefit is paid at 100% of the principal sum insured. Each of the other additional benefits is paid at 20% of the principal sum insured. Additional benefits are not deemed to be Insured Conditions, nor do they fall under the category of Insured Conditions for the purposes of the Second Event Benefit. Partial payment for one of the additional benefits does not reduce eligible payment of a principal sum payment. Each Partial Payment Benefit is payable only once.
